

Home Buyer Classes

Holly Green is a huge fan of Home Repair Resource Center. She moved into her Cleveland Heights colonial last May, and insists that her home purchase would never have been possible without HRRC's Home Buyer classes.

"I had heard about the Cleveland Heights Down Payment Assistance Program a couple of years ago, but I wasn't yet ready," Holly says. "I was making the biggest financial decision of my life, so I wanted to make sure I was well-informed."

She was impressed at how well the classes prepared her for purchasing a home. A single mom, now back in school, Holly admits money is definitely tight. "The classes were amazing in how they helped me clean up my credit," she explains.

"Now, I'm a homeowner. I smile as I mop the floor," she says proudly. She loves doing work on her house, and hopes to attend some of HRRC's repair workshops to learn new skills. Meanwhile, Holly and six-year-old son Caleb are spending all their free time painting the walls of their new home.
